

Room Sponsorship

Our two classrooms, two birthday party rooms, snack area, and Creation Station room will be used to meet the specific programming needs of numerous public groups. Rooms can be sponsored individually or in combination.

Party Rooms A and B: Party rooms will be used for private parties or other small group functions. Each room has a capacity of 24 guests, includes table seating, a sink and small refrigerator, and is separated from the adjacent room by an accordion wall, increasing the capacity to 48. Rooms will be used during normal operating hours, with multiple parties throughout each day.

Classrooms C and D: Classrooms will be used for school field trips and other large group visits. Students, teachers and chaperones will use the room as their “home base” during their visit. Group programming will also be conducted in the space. Each room has a sink, refrigerator and capacity for 30 guests, with an accordion wall allowing for a single room that holds 60.

Creation Station: The creation station will encourage children to get messy while they create artistic masterpieces or other projects. The concepts of reduce, reuse, and recycle will be highlighted. Science experiments will also be conducted in this space that will seat approximately 15 guests.

Snack in the Park: Families will be able to relax under an outdoor scene as they eat a small snack or lunch. The space will be available during operating hours to all patrons that are not part of an organized group trip.
